
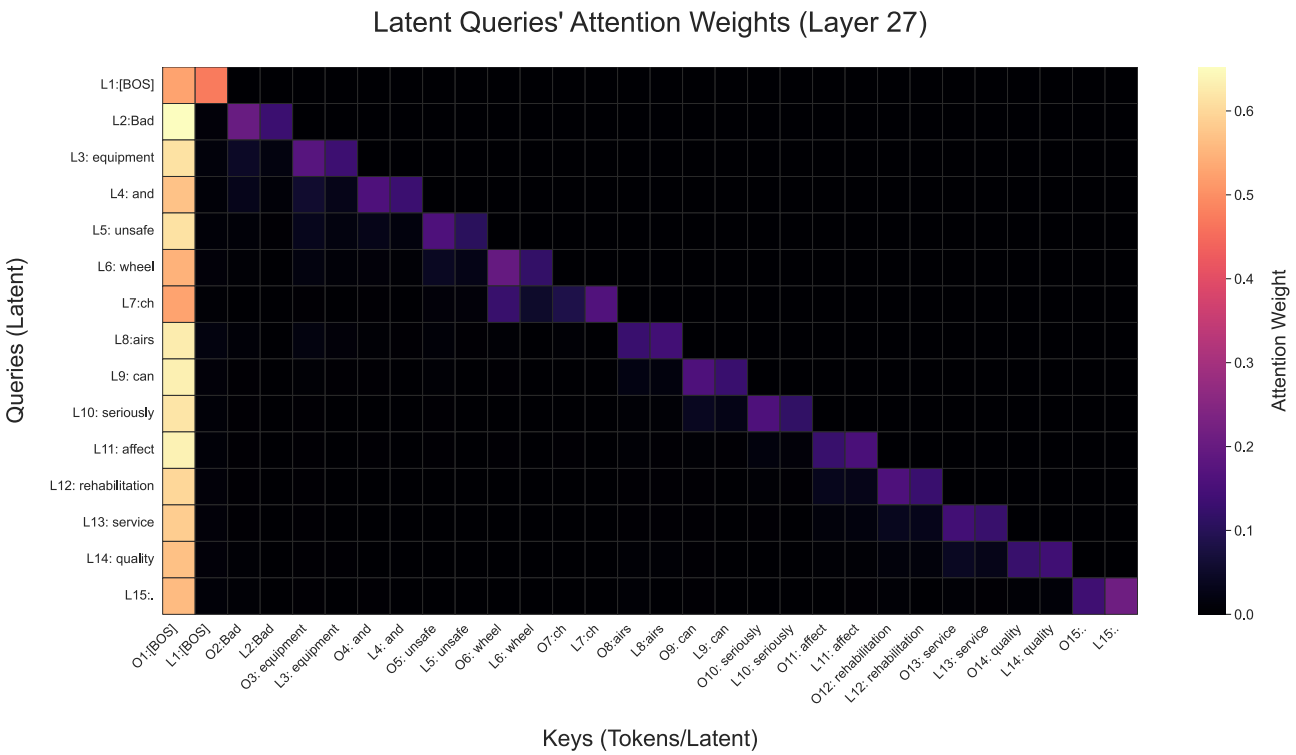
(a) "Regional NYC to Embark on Annual Count of Street Homeless Monday, February 8, 2016."



(b) "Bad equipment and unsafe wheelchairs can seriously affect rehabilitation service quality."

Figure 3. **Case studies of latent query attention at the last layer (Layer 27).** Each heatmap shows the attention weights from latent queries (rows, prefixed L) to all keys (columns: original tokens prefixed O, latent tokens prefixed L). Latent queries primarily attend to their corresponding and nearby original tokens.
